EnToneYo's Way School — Where Language Mastery Reaches Beyond the Universe!

Mastering English is arguably the greatest skill one can learn in today's world. Among its countless benefits, English mastery helps students communicate easily with people around the world, building connections for countless opportunities worldwide. It opens doors for academic and career growth with limitless benefits reaching across the globe.

Beyond practical skills, English fluency enriches cultural experiences and broadens universal understanding to help students succeed in today's ever-changing society.

ABOUT US — Revolutionize Language Education Through Our Unique Teaching Method

The method, created by our founder, Mr. Antonio, uses Quranic reading pronunciation rules to create an international accent for Arabic English speakers. Combined with neurolinguistic programming and real-life community, we have a track record of improved English fluency.

OUR VISION: Your success is our success. We empower the Arabic world in speaking English confidently. Founded in Jordan, we've expanded while staying true to personal connection and community.

OUR MISSION: We are here to help students speak English fluently, understand Western culture, and express themselves with confidence.

# About Us

## ABOUT US — Your Guide to What Makes EnToneYo's Way Unique

EnToneYo's Way School is the first of its kind in the world, distinguished by its unique method for teaching English conversation. Implemented in 2018, we started with 40 students and surpassed 4,500 students by 2024.

Our method graduates students proficient in English conversation with an American accent, comparable to native speakers in pronunciation and linguistic ability. Developed by Mr. Antonio Hodge, it links several sciences to spoken English, including Arabic grammar from the Holy Quran.

## OUR STORY

Mr. Hodge developed his teaching method through deep studies of the Holy Quran, the Prophet's Sunna, and Arabic Maqams. Recognizing the essential role of rhythm and intonation in language, he created an innovative approach adaptable to any language.

Choosing Jordan as the birthplace for this approach, he embraced both Islam and his mother's heritage. Today, EnToneYo's Way leads innovation in language education.

## OUR METHOD

We immerse students in language and American culture for a comprehensive experience. Tested on over 4,500 students from diverse backgrounds, the method enables fluent communication with ease.

## OUR GOALS

We empower everyone to speak English fluently and understand American culture, building confidence and breaking through language barriers. We are expanding with new partnerships and locations, aiming for global recognition.

## ABOUT THE INNOVATOR AND FOUNDER

Mr. Hodge's upbringing fostered exceptional skills. He holds a Master's in Linguistics and Teaching Methods (UIC) and Bachelor's degrees in NLP, English Literature, and other disciplines. His understanding of how the brain processes language and habit loops shaped the method.

Inspired by the Arabic diacritic system and contributions by scholars like Abu al-Aswad al-Du'ali, Al-Khalil ibn Ahmad al-Farahidi, and Sibawayh, Mr. Hodge adapted these ideas to English, creating the Entoneyan Symbols.

EnToneYo's Way — And What It Means: English, Tone, Y'all, Way.

## OUR PILLARS

The method is built on five pillars: Habit Loops, Tone (Rhythm), Symbols, Culture, and Learning Through Teaching.

Habit Loops — practice regularly and improve with minimal effort over time.

Tone — master the natural rhythm of English via repetition and feedback.

Symbols — link English sounds to familiar Arabic-like symbols for precise pronunciation.

Culture — understand native behaviors and nuances.

Learning Through Teaching — reinforce knowledge by explaining to others.
